Attachments: Possible Topics for Monthly PHL Conference Calls.doc

Hello,
Attached is a listing of topics suggested for inclusion in future monthly PHL conference calls. Please prioritize this list, as described on the attachment, and return the document to me by March 25.

My email address is: margaret.dinatale @state.ma.us

Follow-up: We expect to be able to discuss comments from LRN and CDC regarding PT testing and reporting and LRN messenger system for real events. This was the topic from one of our fall conference calls. The liaisons from our group are working with CDC and LRN to obtain responses to our list of questions and concerns.

Thanks in advance for responding to this request. Please circulate this list to Directors and Supervisors at your PHL lab for consideration. I welcome either individual responses or one collated response form from each PHL. Additional topics can be added, this is an ongoing process.

Thanks for your help,
Peggy DiNatale
